Re: TK – 8 CA Next Generation Science Standards (NGSS) Curriculum Adoption Cost

With the approval to adopt the STEMscopes program for grades TK – 8, we now have specific details about pricing for the new science curriculum purchase. The quote, with tax and shipping, is $533,945.32. The quote includes: 4 year Softbound Stemscopedia for every student, 4 year Consumable Journal for every student, 1 Comprehensive Teacher Guide per teacher, TK Early Explorer Big Books set per teacher, 1st year Hands On Kits TK-8th per teacher, Add on Assessment Package for each site at no cost (list = $1,595 per site per year), and Estimated customizable Professional Development for first year. The publisher allows flexibility after 1st year of adoption to reallocate to print, Kits and PD.

The district will have additional costs with this purchase. We anticipate needing additional days of professional learning as we implement the new curriculum. There will be ongoing lab supplies and equipment purchases for the hands on program.

Please see quote attached.

Recommended Action: Approve the purchase of STEMscopes science curriculum from Accelerate Learning for grades TK-8, as presented.
