RE: California Health Kids Survey (CHKS) Results

The California Department of Education (CDE) has funded the CHKS since 1997 to provide data to assist schools in: (1) fostering safe and supportive school climates, social-emotional competencies, and engagement in learning; (2) preventing youth health-risk behaviors and other barriers to academic achievement; and (3) promoting positive youth development, resilience, and well-being. A thorough understanding of the scope and nature of these student behaviors, attitudes, experiences, and supports is essential for guiding school improvement and academic, prevention, and health programs.

While the District has been giving this survey for years in 7th grade, in the 2017/2018 school year the survey was utilized in 5th and 7th grades as the primary data collection source for the LCAP. The District plans to continue to utilize this survey to be able to collect and analyze the same data points over time.

CALIFORNIA HEALTHY KIDS SURVEY RESULTS

JEFFERSON ELEMENTARY SCHOOL DISTRICT 2017-2018
