INFORMATION SHEET 10/17/2023 TRUSTEES' MEETING

ATTACHMENT 7.4

TO: Jim Bridges, Superintendent

FOR: Board of Trustees

FROM: Celli Coeville, CBO

ISSUE: Acquisition of New Diesel Mower

The District currently has two mowers, a Hustler 104" mower, and an Exmark 60" mower. The Hustler mower was purchased used and is now discontinued. Replacement parts are extremely difficult to obtain for the Hustler mower.

Attached for Board consideration is the quote for a new Exmark 96" Yanmar diesel mower from Bill's Mower and Saw, as well as a quote from Baker Supplies and Repairs for the identical mower. The current quote from Bill's Mower and Saw is good for a short while longer as a price increase is expected to be scheduled for November 1, 2023. The mower is in stock, a mulch kit is included in the price and the mower can be shipped immediately.

Recommendation: Approve the purchase of the Exmark 96" Mower

[1] Many manufacturers use 100% efficiency ratings for sale purposes. Exmark believes an 80% efficiency rating is more representative of actual mowing conditions, as it allows for turns and overlapping. Formulas for calculating acres per hour: 100% efficiency: MPH x width of cut ÷ 99 = acres per hour | 80% efficiency: MPH x width of cut ÷124 = acres per hour.
