RE: JSD Reopening Timeline

On Tuesday, October 13, 2020, San Joaquin County is expected to have been in the Red Tier on the California Blueprint for a Safer Economy scale for two weeks. If this occurs Local Education Agencies will be able to reopen schools following California Department of Public Health and San Joaquin Department of Public Health guidelines. The District has communicated to parents and staff that a two-week notice will be provided before any changes in instructional models. For this reason, November 2, 2020 would be the earliest that students return to school.

Three timeline options will be presented for consideration by the Board.

Recommended Action:

The Board will review the school reopening timeline and provide direction.

State Responses to FAQs

Q: If a county was in red and moved back to purple, can schools that have not yet opened still do so?

Once a school starts to reopen for in-person instruction it does not have to close if the count reverts to purple. Opening of cohorts or on a TK- 6 waiver would count as reopening.
