FR: Emily Stroup

DATE: September 12, 2023

RE: Teacher and Administration Induction

A two year Teacher Induction Program is required in order to clear a preliminary teaching credential. This year, at Teacher's College of San Joaquin, the cost is $2460 per teacher, plus a $1,200 stipend for the Mentor Teacher per year. The district has always covered Induction expenses for our teachers.

Additionally, Administrators are required to complete an Administrator Induction Program to clear a preliminary administrative services credential. The cost varies depending on the institution attended.

The District proposes that we continue to pay the above induction program costs for participating teachers (two year maximum) and to pay up to $4,300 per year (two year maximum) for participating administrators.

Recommended Action: Approve District contribution toward the Teacher and Administrator Induction Programs.
