Superintendent’s Report – Dr. Bridges provided an update of District COVID information. Last week the District only had one COVID case in the District.

The District has 48 students on long term Independent Study through San Joaquin County Office of Education’s program. We are slowly starting to see these students return to the District.

Dr. Bridges provided a quick construction update. Corral Hollow Elementary School has gone out to bid now and the bids will be coming back the first week of December. The hope is that a guaranteed maximum price of construction can be brought to the December Board Meeting. There is a hope that

the District will see a lot of bids which will drive the cost of the school down. The District is projecting 750 homes in Tracy Hills to be occupied which will generate about 340 students. We are averaging 5-6 students each week to the District.

III. PUBLIC COMMENT – No public comments for items not on the agenda.

7.2 Bond Counsel for 2022 Issuance and Refunding- Dr. Bridges noted that one of the things the District is considering with Tracy Hills is financing the remainder of the school. With construction costs as high as they are, we currently do not have the mitigation money to build the school based on what we have received from the developer. The District has had discussions with two different groups regarding financing options or selling the remaining bonds and what that process would be. In these discussions, both parties advised that it is a good time to consider refinancing the bonds. Ms. Whittington noted that the Board action tonight on the item and the following item, is just to assemble the team. The District has some requirements that need to be fulfilled in order for the team to do certain work for the District. The refunding and issuance will be brought to the Board next month. Dr. Bridges noted that the District will be looking at things such as the terms of interest, and the length of the loans. The bond market is positive now and if we can refinance the bonds, the District would be reducing the amount of interest the tax payers will have to pay in the long run. This will allow us to have more bonding capacity potentially in the future and will show that we are good

stewards with the funds. More information will be provided next month by the consultant whom the District is working with.
