

GRADUATION STANDARDS

Students in the 6th, 7th and 8th grades will be closely monitored during the school year(s). Students with an accumulated grade point average lower than 2.0 in any trimester will first be referred to the Student Success Team (SST, 504, or IEP) process and a plan will be developed to enable the student the opportunity to become eligible to graduate from the Jefferson School District. If a student is required to attend a Before or After-School Intervention Program during 6th, 7th or 8th grades and they successfully completed it, they will be awarded a .20 adjustment to their cumulative GPA for the trimester it is completed in. Students must successfully complete 30 hours of a Before or After-School Intervention Program to be eligible for the .20 adjustment. In addition, students that successfully complete 80 hours of Summer School will receive a .50 adjustment to their third trimester cumulative GPA. These adjustments should not exceed a cumulative GPA of 2.5.

Transfer students with a cumulative grade point average under a 2.0 grade point average for 6th, 7th, and 8th grades will also be referred to the SST, 504 or IEP process and a plan will be developed to enable the student the opportunity to become eligible to graduate from Jefferson School District.
