

INDEPENDENT STUDY

The Board of Trustees authorizes independent study as an optional alternative instructional strategy by which students in grades K-8 and adult education may reach curriculum objectives and fulfill graduation requirements. Independent study shall offer a means of individualizing the educational plan for students whose needs may be met best through study outside of the regular classroom setting.

(cf. 5147 - Dropout Prevention)

The district's independent study option shall be substantially equivalent in quality and quantity to classroom instruction, thus enabling students enrolled in independent study to complete the district's adopted course of study within the customary time frame. Students in independent study shall have access to the same services and resources as is available to other students in the school.

(cf. 6143 - Courses of Study)

(cf. 6200 - Adult Education)

The Superintendent or designee shall determine that the prospective independent study student understands and is prepared to meet the district's requirements for independent study. Independent study entails a commitment by both the parent/guardian and the student. As the student gets older, he/she assumes a greater portion of the responsibility involved. Independent study may be offered only to students who can achieve in this program as well as or better than they would in the regular classroom.

The Superintendent or designee shall ensure that a written independent study agreement, as prescribed by law, exists for each participating student. (Education Code 51747)

The Board recognizes that independent study may be used as an option to encourage students to remain in school. Teachers should carefully set the duration of independent study assignments, within the limits specified by the Board in order to help identify students falling behind in their work or in danger of failing or dropping out of school.

To foster each student's success in independent study, the Board establishes the following maximum lengths of time which may elapse between the time an assignment is made and date by which the student must complete the assigned work shall be as follows:

1. For students in grades K-3: 1 week
2. For students in grades 4-8: 2 weeks

INDEPENDENT STUDY (continued)

When circumstances justify a longer time, the Superintendent or designee may extend the maximum length of an assignment to a period not to exceed eight weeks, pursuant to a written request with justification.

When any student fails to complete one (1) consecutive independent study assignment, the Superintendent or designee shall conduct an evaluation to determine whether it is in the student's best interest to remain in independent study. Evaluation findings shall be kept in the student's permanent record.
