Dear Jefferson School District Families:

From April 29th to May 17th, students in 3rd to 8th grade will be participating in the Smarter Balanced Summative Assessments in Math and ELA, which are part of the California Assessment of Student Performance and Progress (CAASPP) System. School sites will send out important reminders and a more detailed schedule for students.

Why are the tests important?

The tests were created with teacher input to...

- Measure how well your child has mastered the skills and content standards at his or her grade level.
- Align with the instruction that takes place in the classroom every day.
- Match the learning goals of each grade level.
- Assess critical thinking, analytical writing, and problem solving skills, which are needed for success in college and a 21st century career.

The test has different kinds of questions, including traditional multiple-choice questions as well as ones that require students to explain their answers, show their work, and compose essays.

What should I expect after my student takes the test?

New for next school year, you will receive access to view an electronic score report in the parent portal for your student. The report will show how the student is doing in each area and where help is needed. Depending on the student's results, teachers can use this information to provide targeted help to address specific needs.

But remember, the results from this test aren't meant to tell the whole story. Your child's scores are meant to be one of several ways for you and your child's teacher to see how your student is progressing in school. Test scores, along with student report cards and teacher's observations of your child's performance in the classroom, are used together to form a complete picture of your child's achievement.

Students in grades three through eight who have an IEP that designates the use of an alternate assessment are eligible to take the California Alternate Assessments (CAAs) in ELA and mathematics. The goal of the CAAs is to ensure that students with the most significant cognitive disabilities attain increasingly higher achievement levels and leave high school ready for academic or career options. The test items are aligned with the Common Core State Standards for ELA and mathematics and are based on the Core Content Connectors, which were developed with three tiers of complexity. If you would like

more information or resources about alternate assessments, please visit the CDE's CAASPP Alternate Assessments Web page at <http://www.cde.ca.gov/ta/tg/ca/altassessment.asp>.

In addition to the mathematics and ELA assessments, students in grades 5 and 8 will also take the California Science Test (CAST) or the CAA for Science Test. California's new state standards for science call for students to think and work like scientists and engineers, asking questions and learning through hands-on investigation and discovery. This is the first year the CAST will be operational and students will receive a score report. The CAA is in the second year of field testing and will not provide scores for your child, it is an important step in developing an assessment that will fairly and accurately measure how students are achieving on the new science standards. For additional information about the new science tests and sample questions, please visit the CDE's CAASPP Science Assessment Web page at <http://www.cde.ca.gov/ta/tg/ca/caasppscience.asp>.

Students in grades 5 and 7 are also currently preparing and participating in the California fitness test. The Physical Fitness Test (PFT) for students in California schools is the FitnessGram®. The main goal of the test is to help students in starting lifelong habits of regular physical activity. Additional information can be found online at <https://www.cde.ca.gov/TA/tg/pf/>

Where can I learn more?

For information about the specific testing schedule for your child please contact the school or your child's teacher. I also encourage you to take a look at a practice test for your child's grade level. The practice tests are posted on the California Department of Education's Smarter Balanced Practice Tests Web page at <http://www.cde.ca.gov/ta/tg/sa/practicetest.asp>. To find out more details about the Smarter Balanced test, visit the "Be a Learning Hero" Web site at <http://bealearninghero.org/classroom/smarter-balanced>.

Pursuant to California Education Code Section 60615, parents/guardians may annually submit to the school a written request to excuse their child from any or all of the CAASPP assessments. If you have any questions about your child's participation, please contact the school.

At Jefferson School District, our goal is for all students to achieve their full potential. The Smarter Balanced tests are just one way that we are able to better understand if we are meeting that goal. Thank you for all you do to partner with us in your child's education.

Thank you,

Sarah Steen

Dear Parent/Guardian,

Jefferson School District provides 2nd – 8th grade students the opportunity to participate in an assessment used for identifying Gifted and Talented Education (GATE) students. Currently, the Otis-Lennon School Ability Test, Eighth Edition (OLSAT-8) is available two times each school year: Fall and Spring. Beginning in the 2018-2019 school year, JSD will test all second grade students to be considered for GATE. This is part of a District-wide plan to address the disproportionate number of underrepresented student populations identified as gifted and capture students who may be overlooked in the current identification process.

The OLSAT-8 will be administered to all students in grade 2. The test window is April 29th – May 17th. All 2nd grade students will be assessed unless the parent / guardian provides written notice to opt the student out of this testing. Opt out notice must be received by the School or the Student Services Office by April 17th.

The OLSAT-8 is a nationally standardized, norm-referenced, group administered, measure of verbal and non-verbal school abilities. It is a multiple choice test that lasts approximately 60 minutes. The areas measured include:

- Verbal Comprehension: understanding of language; similarities and differences among words
- Verbal Reasoning: using language to infer, apply, and classify
- Pictorial Reasoning: inferring from and evaluating pictures
- Figural Reasoning: reasoning involving geometric shapes

Students identified for GATE services are provided with educational opportunities to realize their full potential. The district philosophy and plan is to make program services an integral part of the school day, every day. The district believes that all students must be provided a challenging curriculum that is aligned with state standards and frameworks and allows students to meet and exceed the state academic content standards. The district's program design centers around the principles of differentiated instruction and are imperative to meet the intellectual, academic, social and emotional needs of all students. Teachers strive for depth, complexity, novelty and acceleration in all of their daily instruction. Teachers ensure that students are able to understand, apply and extend beyond the standard(s), and they use the instructional strategies needed to meet the individual needs of each student.

Please contact the District Office if you have questions.

Happy Birthday To You...

Traina School Library is happy to offer our Birthday Book Club! It's a great way to celebrate reading and commemorate special occasions. Traina families and staff have added more than 350 books to the shelves since we started in 2009!

It's called the Birthday Book Club, but you certainly aren't limited to celebrating birthdays. Celebrate just about any special occasion. A new addition to the family, a birthday, a graduation or significant achievement, a special anniversary. Even the memory of a loved one can be shared.

Simply pick up a Birthday Book Club form from the library, office or a teacher. Fill it out to let us know who and what you would like to honor and choose a book from the club's book case. Books vary in price but start as low as \$14.00 each. We will bill you for the book and, once paid, your student will get to present your gift to the library during their next library visit. Your student is also the first to check the book out if they'd like. The librarians will present your student with an official Birthday Book Club Member bookmark and a card for the occasion.

The book will also have a commemorative book plate placed on the inside front cover, sharing your special memory and generosity with all who read it.

A BOOK IS A GIFT THAT KEEPS ON GIVING!

Traina School Library
"Birthday Book Club"
2018-2019

Dear Parents,

If you would like to purchase a book to be placed in our school library in honor of a special occasion or loved one, please sign and return this form. At a date close to your child's birthday, we will invite him/her to the library to select a book from the special "Birthday Book Club Case." These hardcover books are priced from \$14.00 and up. If your child celebrates a May or summer birthday, or if it is for a different occasion, we will invite them in immediately to make their selection.

After your child has made their selection, you will be sent a Book Club Bill that includes the name of the book and its price. Once the book is paid for (checks payable to Traina School Library), your child becomes an official member!

As a member, a celebratory personalized book plate will be permanently placed inside the front cover of the book. During your child's class library visit, they will present the donation and are invited to be the first to check out their birthday book.

If you'd like, we would be happy to help you honor your child's teacher with a Book Club donation as well.

The Bralette Cold

The bralette and the cold shoulder style shirt are two recent fashion trends that have become very popular. Parents may be wondering if they are dress code compliant. Basically, with a bralette, the shirt worn on top of the bralette must meet the dress code requirements. For cold shoulder shirts, the shoulder straps must follow the 4-finger rule.

Ident-A-Kid Visitor Management System

Jefferson School District received a grant to help implement the Ident-A-Kid Visitor Management System at our school. This is a system where visitors scan their drivers license and a background check is performed against the national sex offender registry prior to receiving a visitor badge. Tardy students and students leaving campus early will also use the system. **Please remember, when arriving on Traina campus you will be asked to scan your drivers license.** Thank you in advance for your cooperation and assistance in keeping our campus safe!

OOPS!

Did your student forget their lunch or homework? If a student forgets their lunch, homework, or any other item, please e-mail the teacher letting the teacher know the item is in the office for pick up. Unfortunately, the office will NOT be able to contact the teacher and/or student letting them know the item is in the office. Please arrange all communication prior to the start of the day. Thank you for your understanding and cooperation.

HELP WANTED: Jefferson School District is looking for substitute custodians, food service workers, and campus aides. If you are interested in applying, please click on the following links. Contact the Human Resources Department at 209-836-3358 if you have any questions.
