Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

Part IV - Carry-forward Adjustment	

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based. Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. CRITERION: Facilities Maintenance

STANDARD: Identify changes that have occurred since budget adoption in the projected contributions for facilities maintenance funding as required pursuant to Education Code Section 17070.75, or in how the district is providing adequately to preserve the functionality of its facilities for their normal life in accordance with Education Code sections 52060(d)(1) and 17002(d)(1).

Determining the District's Compliance with the Contribution Requirement for EC Section 17070.75 - Ongoing and Major Maintenance/Restricted Maintenance Account (OMMA/RMA)

EC Section 17070.75 requires the district to deposit into the account a minimum amount equal to or greater than three percent of the total general fund expenditures and other financing uses for that fiscal year. Statute exclude the following resource codes from the total general fund expenditures calculation: 3212, 3213, 3214, 3216, 3218, 3219, 3225, 3226, 3227, 3228, 5316, 5632, 5633, 5634, 7027, and 7690.

DATA ENTRY: Enter the Required Minimum Contribution if Budget data does not exist. Budget data that exist will be extracted; otherwise, enter budget data into lines 1, if applicable, and 2. All other data are extracted.

Explanation:

(required if NOT met and Other is marked) The whole grant amount was budgeted although the district does not project to spend all of the budget. If all of the budget is spent, the RRM transfer will be increased at Unaudited Actuals

S6. Long-term Commitments

Identify all existing and new multiyear commitments¹ and their annual required payment for the current fiscal year and two subsequent fiscal years. Explain how any increase in annual payments will be funded. Also, explain how any decrease to funding sources used to pay long-term commitments will be replaced.

¹ Include multiyear commitments, multiyear debt agreements, and new programs or contracts that result in long-term obligations.

S6A. Identification of the District's Long-term Commitments

DATA ENTRY: If Budget Adoption data exist (Form 01CS, Item S6A), long-term commitment data will be extracted and it will only be necessary to click the appropriate button for Item 1b. Extracted data may be overwritten to update long-term commitment data in Item 2, as applicable. If no Budget Adoption data exist, click the appropriate buttons for items 1a and 1b, and enter all other data, as applicable

1.	a. Does your district have long-term (multiyear) commitments?	
	(If No, skip items 1b and 2 and sections S6B and S6C)	No
	b. If Yes to Item 1a, have new long-term (multiyear) commitments been incurred	
	since budget adoption?	N/A

2. If Yes to Item 1a, list (or update) all new and existing multiyear commitments and required annual debt service amounts. Do not include long-term commitments for postemployment benefits other than pensions (OPEB); OPEB is disclosed in Item S7A.

S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since budget adoption, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.
